1 SCHOOL PROFILE

Mooroopna North Primary School is situated approximately 10km north of Mooroopna on Ardmona Road, which links Echuca Road and The Midland Highway. The original school was opened on 12 July 1875, and is the only remaining building from an early significant township. The school moved into the new permanent facility in May 2009, which was the first to be completed within the State government’s Rural School Replacement Program.

The new building features a large open-plan learning environment which has been designed to cater for all children’s individual learning needs, and for flexible configuration of learning spaces. The design features low energy lighting and has a ‘five-star’ energy rating. The school is entirely self-sufficient in terms of water, and the roof has been designed for full air flow reducing dependence on additional heating and cooling.

The student population is drawn from the town of Mooroopna and the surrounding farming community. A bus service is provided daily from fifteen locations in Mooroopna and two in Shepparton. Nearby schools, Undera, Ardmona, Harston, Merrigum and Dhurringile join with us to form the Midland Rural Schools Cluster.

We also belong to the Mooroopna Cluster. Both Clusters provide opportunities for combined programs, cultural activities, sharing of resources, transition and wider community involvement for the children. The clusters also allow staff to interact on a professional basis ensuring that best practice is employed in all schools.

Currently we operate two multi-age classrooms with an average class size of 17 students. Each classroom has a teacher’s aide who assists children with special needs as well as general curriculum delivery for all. Specialist programs are provided in physical education, art and library. Each year our school community has the opportunity to participate in a whole school excursion and students are involved in an annual one week swimming block, athletics carnival, camps and cultural days.

Members of the school community strive at all times to improve learning outcomes and conditions for all students. This is evident with significant resources being allocated to Literacy, Numeracy and Technology, as well as the installation of new adventure playgrounds and outside learning areas. There are wireless networked laptops and iPads and interactive whiteboards in each teaching space. This allows students to access technology as a tool to complement learning across all areas of the curriculum.

Mooroopna North Primary School values and prides itself on a strong home school partnership which aims at providing our students with a safe, caring and stimulating learning environment.

At Mooroopna North Primary School we work cooperatively and collaboratively to ensure that the school operates effectively, and that its policies and programs are relevant and effective. On Monday and Friday mornings, the school runs a breakfast program to ensure students begin the day on an equal footing.

The school has strenuously developed a culture of EQ – or Emotional Intelligence – which embodies the philosophy that children need to be taught social skills and the importance of making strong choices.
Over 80% of the school’s population is bussed out daily from Mooroopna and Shepparton. The remaining 20% are driven to school via private vehicles from the same locations. We have no students attending school whose family’s sole or major income is derived from the land.

The School’s Student Family Occupation (SFO) has remained stable during the last 4 years decreasing from 0.57 in 2007 to 0.56 in 2008. In 2010 we had 13% of our school population with a (LBOTE) Language Background Other than English. Prior to this there were nil. Seventeen (17) % of our students are Koorie.

Despite the drought, our overall census enrolment has trended upwards, 63 students in 2008 to 89 in 2011. Prep enrolments have remained relatively stable, 9 students in 2008 and 8 students in 2010.

National Schools Pride capital was expended on the services of a local Landscape Architect as well as an all-weather surface for our Netball/Basketball court. Construction of a fourth (4th) learning space through (BER) Building the Education Revolution is scheduled to commence in June 2011.
2. **SCHOOL VALUES, PHILOSOPHY AND VISION**

Mooroopna North is committed to providing a safe, secure and stimulating learning environment for all students. Students can reach their full educational potential only when they are happy, healthy and safe, and when there is a positive school culture to engage and support them in their learning. Our school acknowledges that student wellbeing and student learning outcomes are inextricably linked.

Our school is also committed to improving student connectedness to their school and developing a safe respectable and fair school culture for all.

We aim to implement a whole school approach to student engagement that focuses on the promotion of positive relationships, student resilience, individual wellbeing and engagement in learning.

OUR PHILOSOPHY:
At Mooroopna North our moral commitment is to provide human and physical resources which assist each child to maximise their emotional, social, physical and academic potential.

OUR VISION:
As human beings we respond emotionally first and rationally second. Emotions have the greatest influence on our behaviour. Knowing about human emotions and understanding why and how they occur allows us to take charge of, manage and change our own behaviour.

*Self-awareness, self control, self motivation, empathy and the ability to get along with others are the pillars of emotional intelligence, and constitute the pathway to health, happiness and success.*

OUR VALUES:
The core values of the school are BART

- **Belonging**
- **Achievement**
- **Respect**
- **Teamwork**

A statement about Rights and Responsibilities of all students and school staff is included at **Appendix 1**.
3. GUIDING PRINCIPLES

- The school will collaboratively develop and implement a fair and respectful whole-school engagement and behaviour management approach.
- The school’s curriculum will include pro-social values and behaviour to enable students to acquire knowledge and skills, value diversity and build a culture of learning, community and engagement.
- The school will promote active student participation and provide students with a sense of ownership of their environment.
- The school will support families to engage in their child’s learning and build their capacity as active learners.
- The school promotes active ‘student participation’ as an avenue for improving student outcomes and facilitating school change.
- The school will establish social/emotional and educational support for vulnerable students and monitor and evaluate progress.
- The school will have processes in place to identify and respond to individual students who require additional assistance and support.
- The school will build strong links with the local community to gain access to an extended network of community members, professionals and educators who can provide expertise and experience that can build the capacity of our school and our teachers to respond to the needs of the students.

4. ENGAGEMENT STRATEGIES

To realise our vision, our school has in place a range of strategies to promote engagement, positive behaviour and respectful relationships for all students in the school. We recognise that some students, as a group or as individuals may need extra social, emotional or educational support to flourish at school, and so we will put in place strategies to identify these students and provide them with the support they need.

The School works collaboratively with students and parents/ carers to establish fair and respectful behaviour policies and practices, based on the school’s values, expected social competencies and positive peer relationships. There are also intervention strategies in place to address inappropriate behaviours which can negatively impact on the learning environment of the self and others.

The universal (whole-school), targeted (group-specific) and individual engagement strategies used in our school are outlined in Appendix 2.
5. IDENTIFYING STUDENTS IN NEED OF EXTRA SUPPORT

Our school will utilise the following information and tools to identify students in need of extra support using the following strategies:

- Personal information gathered upon enrolment
- Attendance rates
- Academic performances, particularly in literacy and numeracy assessments
- Behaviour observed by classroom teachers
- Engagement with student families
- School Entry Health Questionnaire

6. BEHAVIOURAL EXPECTATIONS

Shared behavioural expectations for students, parents/carers and school staff are detailed at Appendix 3.

7. SCHOOL ACTIONS

Responding to challenging behaviour

Where a student acts in breach of the behaviour standards of our school community, we will institute a staged response, as outlined in the Department of Education and Early Childhood Development Student Engagement and Inclusion Guidance (see Appendix 4).

Discipline

Disciplinary measures may be used as part of a staged response to challenging behaviour in combination with other engagement and support strategies to address the range of factors that may have contributed to the student's behaviour.

Disciplinary measures that may be applied include:

- Restorative approach (e.g. repairing damage caused)
- Withdrawal of privileges
- Withdrawal from class activities for a specified period. Where appropriate, parents/carers will be informed of such withdrawals
- Detention
- Suspension (in-school and out of school)
- Expulsion

Discipline will be applied in a way that is proportionate to the behaviour and upholds procedural fairness.

Corporal Punishment is prohibited in all Victorian schools. Corporal punishment must NOT be used at the School under any circumstances.
Suspension and expulsion are measures of last resort and may only be applied when the grounds for suspension and expulsion set out in the Engagement and Inclusion Guidance have been met.

Suspension and expulsion can only be approved by the principal and our school will follow the processes for applying these disciplinary measures set out in the Student Engagement and Inclusion Guidance.

Information on grounds and processes for suspension and expulsion that our school will follow are available here: http://www.education.vic.gov.au/school/principals/participation/Pages/discipline.aspx

8. ENGAGING WITH FAMILIES

The School values parent / carer input into its operations and curriculum offerings and seeks feedback through the Parent Opinion survey, and from parent representatives on School Council. The School Council provides financial assistance and encouragement to the Parents’ Association in our efforts to build a sense of community.

The school will support families to engage in their child’s learning and build their capacity as active learners. It provides an environment that welcomes all parents/carers and is responsive to them as partners in learning.

The school will create successful partnerships with parents/carers and families by:

- ensuring all parents/carers are aware of the school’s Student Engagement Policy
- conducting effective school-to-home and home-to-school communications
- providing volunteer opportunities to enable parents/carers and students to contribute
- involving families with homework and other curriculum-related activities
- involving families as participants in school decision-making
- coordinating resources and services from the community for families, students and the school
- involving families in Student Support Groups

Parents responsibilities for supporting their child’s attendance and engagement are outlined at Appendix 3. Furthermore, parents are expected to act in a respectful and constructive manner when dealing with our school. More detail on parent responsibilities and consequences for inappropriate behaviour are outlined in our Statement of Values.

9. Evaluation

Data collection and analysis

Data will be collected regarding frequency and types of wellbeing issues, so as to measure the success or otherwise of school-based strategies and approaches.

Some of sources of data used are:
The Attitudes to School Survey data
School level report data
Parent survey data
data from case management work with students
data extracted from software such as CASES21 or SOCS

Review of this policy
This policy will be reviewed annually or more often if necessary due to changes in regulations or circumstances.

STATEMENT OF RIGHTS AND RESPONSIBILITIES

As members of the Mooroopna community, students, teachers, and families have certain Rights and Responsibilities, which are expected to be upheld. It is our basic belief that all Teachers have the right to teach, and feel safe and that all Students have the right to learn and feel safe, both physically and emotionally. Students, Teachers and Parents all share equal Responsibility in acting in ways that uphold each of our Rights.

It is the right of all members of the School community to experience a safe and supportive learning and teaching environment. Staff, students and parents/ carers have a right to be treated with respect, and enjoy an environment free from bullying (including cyber bullying), harassment, violence, discrimination or intimidation. (Refer to our Bullying Prevention Policy and Equal Opportunity Policy).

Teachers also have the rights to be informed, within Privacy requirements, about matters relating to students that may impact on the teaching and learning for that student.

Students have a responsibility to contribute positively to the educational experience for themselves and other students, to participate fully in the school’s educational program, and to ensure that their behaviours demonstrate respect for themselves, their peers, their teachers and all other members of the school community.

Parents/ carers have a responsibility to take an active interest in their child’s educational progress, model and reinforce positive behaviours and ensure their child’s regular attendance. They have a responsibility to support the school in maintaining a safe and respectful learning environment for all students, and engage in regular and constructive communication with school staff regarding their child’s learning.

Teachers have a responsibility to demonstrate the standards set by the Victorian Institute of Teaching. That is, to know how students learn and how to teach them effectively, know the content they teach, know their students, plan and assess for effective learning, create and maintain safe and challenging learning environments, and use a range of strategies to engage students in effective learning. Teachers also have a responsibility to fairly, reasonably and consistently implement the Student Engagement Policy.

All members have an obligation to ensure school property is appropriately used and maintained.
